

What You Need To Know about Overdrafts and Overdraft Fees

An overdraft occurs when you do not have enough money in your account to cover a transaction, and we choose to pay it anyway. We can cover your overdrafts in two different ways:

1. We have standard overdraft practices that come with your account.
2. We also offer overdraft protection plans, such as a link to a savings account, which may be less expensive than our standard overdraft practices. To learn more, ask us about these plans.

This notice explains our standard overdraft practices.

What are the standard overdraft practices that come with my account?

For those that qualify after 30 days; we offer a Discretionary Overdraft Privilege service. Should you inadvertently overdraw your account we will normally cover overdrafts for the following types of transactions:

- Checks and other transactions made using your checking account number
- Automatic bill payments
- We will charge you a fee of **\$25** each time we pay an overdraft
- There is no limit on the total fees we can charge you for overdrawing your account
- We will cover overdrafts up to \$500

IMPORTANT CHANGES TO OVERDRAFT PROTECTION

Due to changes in the federal regulations governing electronic transactions, we can no longer authorize and pay overdrafts for your everyday debit card transactions unless you opt-in by signing this form.

We pay overdrafts at our discretion, which means we do not guarantee that we will always authorize and pay any type of transaction.

If we do not authorize and pay an overdraft, your ***transaction will be declined.***

I **want** Mid-Illini Credit Union to authorize and pay overdrafts on my everyday debit card transactions.

I **do not** want Mid-Illini Credit Union to authorize and pay overdrafts on my everyday debit card transactions.
